Date: 11-Aug-17

supersedes: version (1)

1. Identification of the substance & the company

| | |
|-------------------------|--|
| Chemical name | : Dermatophagoidus farinae Mite Bodies |
| Chemical formula | : N.A. biological material |
| Synonym | : N.A. |
| CAS number | : N.A. |
| EINECS number | : N.A. |
| Product code (supplier) | : 02.02.30 |
| Chemical family | : mixture of natural materials contain proteins, enzymes e.g. proteases etc.. |
| Molecular weight | : N.A. |
| Type of product and use | : Allergen |
| Company identification | : Citeq Biologics |
| Address and telephone | : Admiraal de Ruyterlaan 5 9726 GN Groningen The Netherlands Postbus 41053 9701 CB Groningen Tel : +31.50 313 7464 Fax : +31.50 311 3643 e-mail: info@citeq.com |

2. Hazards identification

| | |
|------------------------------|--|
| NFPA ratings (scale 0-4) | : health=3 fire=0 reactivity=0 |
| Important hazards | : May be irritating if inhaled to people who are allergic to this mite. Avoid breathing dust. Avoid contact with eyes, skin and clothing. Keep container tightly closed. Wash thoroughly after handling. Use only with adequate ventilation. Use dust mask P2. |
| Adverse human health effects | |
| Inhalation: | |
| Short term effects | : No information is available on significant adverse effects. |
| Long term effects | : May cause wheezing and asthma. |
| Skin contact: | |
| Short term effects | : May cause rash. |
| Long term effects | : No information is available. |
| Eye contact: | |
| Short term effects | : May cause tearing. |
| Long term effects | : May cause redness and swelling of the eyes. |
| Ingestion: | |
| Short term effects | : No information is available. |
| Long term effects | : No information is available. |
| Additional data | : May cause allergy. |
| Environmental hazards | : No information is available. |

3. Composition / information on ingredients

| | |
|------------------------------|---|
| Substance/preparation | : substance |
| Ingredients | : Purified house dust mite <i>Dermatophagoides farinae</i> bodies |
| | R-Phrases: R20/ R21/R22 |
| | - Harmful by inhalation and if swallowed |
| | - Harmful in contact with skin |
| Other hazardous component(s) | : none |

4. First-aid measures

| | |
|--------------|--|
| General | : Remove contaminated clothing. |
| Inhalation | : FIRST AID- Remove from exposure area to fresh air immediately. Perform artificial respiration if necessary. Keep person warm and at rest. Treat symptomatically and supportively. Get medical attention immediately. |
| Skin contact | : FIRST AID- Remove contaminated clothing and shoes immediately. Wash with soap or mild detergent and large amounts of water until no evidence of mixture remains (at least 15-20 minutes). Get medical attention immediately. |
| Eye Contact | : FIRST AID- Wash eyes immediately with large amounts of water or normal saline, occasionally lifting upper and lower lids, until no evidence of mixture remains (at least 15-20 minutes). Get medical attention immediately. |
| Ingestion | : FIRST AID- If vomiting does not completely empty the stomach, proceed with the following: Induce emesis with syrup of ipecac and water. When vomiting occurs, keep head lower than hips to help prevent aspiration. Do not give anything by mouth or induce vomiting if person is unconscious or otherwise unable to swallow. Treat symptomatically and supportively. Get medical attention immediately. Qualified medical personnel should consider performing gastric lavage (Dreisbach & Robertson; Handbook of Poisoning; 12th Ed.). |

NOTE TO PHYSICIAN

| | |
|----------------------------|---|
| Antidote | : No specific antidote. Treat symptomatically and supportively. |
| Protection of first-aiders | : In case of insufficient ventilation, wear suitable respiratory equipment. |

5. Fire- fighting measures

| | |
|----------------------------------|---|
| General | : Negligible fire hazard when exposed to heat or flame. |
| Flash point | : No data available. |
| Auto-ignition temperature | : No data available. |
| Extinguishing media | : Dry chemical, carbon dioxide, water spray or regular foam. For larger fires, use water spray, fog or regular foam. |
| Fire fighting procedure | : Move container from fire area if you can do it without risk. Extinguish using agent suitable for type of surrounding fire. Avoid breathing vapours and dusts. Keep upwind. |
| Usual fire and explosion hazards | : None |
| Protection of fire-fighters | : In case of insufficient ventilation, wear suitable respiratory equipment. |
| Hazardous combustion products | : Thermal decomposition products may include fumes of organic substances. |

6. Accidental release measures

| | |
|---------------------------|--|
| Personal precautions | : Keep away from sources of ignition No smoking. : In case of insufficient ventilation, wear suitable respiratory equipment. |
| Environmental precautions | : Avoid generation of dust. |
| After spillage/leakage | : Do not touch spilled material. Stop leak if you can do it without risk. For small spills, take up with sand or other absorbent material and place into containers for later disposal. For small dry spills, place the material into clean, dry container with a clean shovel and cover. Move containers from spill area. |

7. Handling and storage

| | |
|-------------|---|
| Handling | : Avoid inhaling and contact. |
| Storage | : Keep container tightly closed. Store protected from light. Storage temp.: recommended temperature -20°C. |
| Application | : Allergen. |

8. Exposure controls/personal protection

Exposure limits : Not known.

Ventilation requirements : Provide local exhaust ventilation to meet published exposure limits.

Ventilation equipment should be explosion-proof if explosive concentrations

Personal protection equipment

Respiratory protection : Dust mask P2.

Gloves : Working gloves.

Eye protection : Employee must wear splash-proof or dust-resistant safety goggles to prevent eye contact with this substance.

Others : Working clothing. Employee must wear appropriate protective (impervious) clothing and equipment to prevent repeated or prolonged skin contact with this substance.

Industrial hygiene : Avoid contact.
Safety shower and eye bath should be provided. Do not eat, drink or smoke until after-work showering and changing clothes.

9. Physical and chemical properties

Appearance : powder
Colour : Light yellow/beige
Odour : Light characteristic
Odour range : Not applicable.
pH : Not applicable.
Melting point/range : Not applicable.
Boiling point/range : Not applicable.
Flash point : Not applicable.
Evaporation rate (ether=1) : No data available.
Inflammable : Not applicable.
Inflammable or explosion range : Not applicable.
Vapour pressure : No data available.
Vapour density : No data available.
Relative density (air=1) : No data available.
Solubility :
- solubility in water : Slightly in water at 25 °C.
- solvent solubility : Not known.
Distribution coefficient : No data available.
Spontaneous combustion temp. : Not applicable.
Thermal decomposition : > 300 °C
Viscosity : Not applicable.
Explosion characteristics : Not applicable.
Oxidation characteristics : Not applicable.

10. Stability and reactivity

| | |
|----------------------------------|---|
| Stability | : Stable at normal temperatures and pressures. |
| Materials to avoid | : Stable at normal temperatures and pressures. |
| Conditions to avoid | : Stable at normal temperatures and pressures. |
| Hazardous decomposition products | : Thermal decomposition products may include fumes of organic nature. |
| Hazardous polymerization | : No |

11. Toxicological information

Toxicity data

Mouse LD50 : Not applicable.

Rat LD50 : Not applicable.

Human : Intravenous-human Anaphylactic shock can appear to this compound sensitive allergic people.

mutagenic data (RTECS) : No data known.

reproductive : No data known.

Carcinogen status : No data known.

Additional data : Parenteral administration has been reported to cause at sensitive allergic people anaphylactic shock, anaphylactic-like reactions.

Health effects

Inhalation

Acute exposure : **HIGHLY ALLERGIC**
Inhalation may cause transient bronchial irritation.

Chronic exposure : Could induce specific allergy.

Skin contact:

Acute exposure : Contact may rarely produce skin irritation.

Chronic exposure : No data available.

Eye contact

Acute exposure : This mixture of allergens could cause an irritating sensation, lacrimation and conjunctival hyperemia.

Chronic exposure : No data available.

Ingestion

Acute exposure : No data available.

Chronic exposure : No data available.

12. Ecological information

Acute aquatic toxicity : No data available.
Degradability : No data available.
Log bioconcentration factor (BCF) : No data available.
Log octanol/water partition coefficient : No data available.

13. Disposal considerations

Waste disposal : In closed containers. Observe all national, state and local environmental regulations when disposing of this material.

14. Transportation information

Not submitted to transport regulation.

15. Regulatory information

EEC

- symbol(s)

- R Phrase(s) : R20/ R21/R22
- Harmful by inhalation and if swallowed
- Harmful in contact with skin

- S Phrase(s)

: 7/9 keep container tightly closed
26 in case of contact with eyes rinse immediately with plenty of water and seek medical advice.

16. Other information

None
